### WORK EXPERIENCE

**Software Engineer**

Nov 2024 - PRESENT

MaibornWolff GmbH

- Built full-stack features including passwordless authentication, API integrations, and email services across Angular, React, and Next.js.
- Led Angular application development for an internal digital platform.
- Contributed to ThreatSea open-source tool with database migrations and test coverage using Pytest.
- Deployed and optimized Kubernetes and CI/CD pipelines using Azure DevOps.

**System Administrator**

May 2023- Nov 2024  
1.5 years

MaibornWolff GmbH

- Managed Windows Server, Microsoft Entra, ServiceNow, and Cisco VPN systems.
- Automated administrative tasks and monitored infrastructure using PowerShell and CheckMK.
- Supported users across hardware, software, and network environments.
- Collaborated with developers on CI/CD and system security improvements.

**Full-stack Developer**

May 2024 - Sep 2024

GeeksHubs Academy

- Completed an intensive full-stack program and developed a capstone project showcasing end-to-end design, development, and deployment skills.
